

8/11/67

Dear Miss Brunson,

What I had in mind is a simple statement of all that you see wrong in this picture in its various forms.

I am overcommitted and rapidly getting even more tired. My purpose is to give it to another who knows less about the subject but, if I can interest him, will do more with it than I could dream of.

Unless there is something you would like to add, I'll give this to him when next I see him. He is with a major publication.

They also have excellent photographic facilities. He has become quite interested in the assassination and plans one story of which I know on pictures. I have been helping him.

Sincerely,
